

To our customers and friends,

We are all dealing with this new global challenge together. We hope everyone stays healthy as possible. Our thoughts and prayers go out to those who are directly effected by this event that will go down in history as a time the entire world came together as one.

What's going on at Team Tech Group of companies?

- We are shipping every order on time, answering your questions, and providing support at our customer / technical service hotline 720-307-7263.
- UPS is here daily for pick ups and have assured us that our orders will be on time.
- Our engineering and production facility is closed to the public. There will be no shop visits or customer order pick ups.
- We are taking steps to stay healthy and productive.
- Our team will work from home when possible and when at the shop take all necessary precautions as instructed.
- Our raw materials are in great shape, and we have enough inventory to carry us through this period in time. We have been working with our suppliers of wire, fuses, relays injection molded boxes etc to ensure solid supply going forward.
- Since many of our customers are at home and find it a good time to work on their off-road vehicles, our orders have been strong throughout this period and we thank all of you for helping keep our minds busy.

We truly appreciate every order that we receive, big or small. THANK YOU.

Please feel free to contact us with any questions and thank you again.

— Scott and the entire team at the TEAM TECH GROUP of companies
