

How to Manage your Outputs

IDENTIFY WIRE LEADS:

Familiarize yourself with all of the wire circuits.

Please check our website, www.STechSwitch.com/Updates for the latest in installation updates and helpful hints to your installation.

FROM YOUR ACCESSORIES:
Only connect the positive side to the STECH OUTPUTS. By design, each of your accessories should be grounded at or near each accessory.

WIRE ID

- A** = Output Wires 1, 2, 3, 4 (5, 6)
- B** = Small Accessory Red Wire (Fuse Block, connect to Fuse tab and insert in Fuse Block Position M9)
- C** = Big Red Wire (12V Battery)
- D** = Black Wire (Ground)
