

## BE SURE TO INSTALL THE CORRECT FUSE FOR YOUR ACCESSORY.

Install the fuse with the accessory manufacturers' recommendation on the amperage of each fuse location. Make sure it matches with the fuse location in S-TECH. Maximum Total Load 600 watts / at 12V, 72 amps. All circuits are capable of 30A each.

### Example:

A 50" light bar would require a 30A fuse while a few LED rock lights would usually require less than 10A

**Here's how the switch numbers relates to fuses and relays.**

# 09

4 position switch system shown

**\* NOTE: Fuse layout is in the process of standardizing between all of our systems. Please confirm your specific S-TECH Fuse layout and use appropriate amperage fuses at all times.**
